Homemade Microwave Puffy Paint

We started with one cup of flour and mixed in 3 teaspoons of baking powder, 1 teaspoon of salt and enough water to make it the consistency of pancake batter. We divided our mix into four parts and put them into snack size Ziploc baggies along with some food coloring. Part of the fun was squishing it all around to mix up the colors!

Rubber band the baggies like you would if you were icing a cake and snip off the teeniest little bit of the tip.

Paint away! When you're finished, pop the painting into the microwave for 30-45 seconds and watch the paint puff up and grow – such fun! I loved that it was completely dry out of the microwave so we didn't have to worry about any extra messes or accidents as our pile of paintings grew.
